

# Preface

This volume contains a selection of the papers presented at the twenty-second annual meeting of the Linguistic Society, held in Utrecht on January 19, 1991. The aim of the annual meeting is to provide members of the society with an opportunity to report on their work in progress. At this year's meeting 57 papers were presented.

The seventeen papers contained in this volume present an overview of research in different fields of linguistics in the Netherlands. As in previous years, the authors have submitted their articles in camera-ready form. We are grateful to them for their cooperation. We also thank a large number of colleagues who helped us referee the papers submitted for this volume.
