## **Historiographia Linguistica**

International Journal for the History of the Language Sciences

**Edited by Jean-Michel Fortis and Otto Zwartjes**

Université Paris Cité & Sorbonne Nouvelle / CNRS

*Historiographia Linguistica* (HL) serves the ever growing community of scholars interested in the history of the sciences concerned with language such as linguistics, philology, anthropology, sociology, pedagogy, psychology, neurology, and other disciplines. Central objectives of HL are the critical presentation of the origin and development of particular ideas, concepts, methods, schools of thought or trends, and the discussion of the methodological and philosophical foundations of a historiography of the language sciences, including its relationship with the history and philosophy of science. HL is published in 3 issues per year of about 450 pages altogether. Each volume contains a dozen articles or more, at least one review article or a bibliography devoted to a particular topic, a great number of reviews and review notes as well as information on important recent or forthcoming activities and events in the field.

HL publishes its articles Online First.
