Edited by Sandra Benazzo, Marianne Gullberg, Henriëtte Hendriks and Georges Daniel Véronique
Université Paris 8 / Lund University / University of Cambridge / Université d'Aix-Marseille

LIA is a bilingual English-French journal that publishes original theoretical and empirical research of high scientific quality at the forefront of current debates concerning language acquisition. It covers all facets of language acquisition among different types of learners and in diverse learning situations, with particular attention to oral speech and/or to signed languages. Topics include the acquisition of one or more foreign languages, of one or more first languages, and of sign languages, as well as learners' use of gestures during speech; the relationship between language and cognition during acquisition; bilingualism and situations of linguistic contact – for example pidginisation and creolisation. The bilingual nature of *LIA* aims at reaching readership in a wide international community, while simultaneously continuing to attract intellectual and linguistic resources stemming from multiple scientific traditions in Europe, thereby remaining faithful to its original French anchoring. *LIA* is the direct descendant of the French-speaking journal *AILE*.
