Gesticure publishes articles reporting original research, as well as survey and review articles, on all aspects of gesture. The journal aims to stimulate and facilitate scholarly communication between the different disciplines within which work on gesture is conducted. For this reason papers written in the spirit of cooperation between disciplines are especially encouraged.

Metaphor and the Social World

Edited by Aletta G. Dorst, Susan Nacey and Dennis Tay

Leiden University / Inland Norway University of Applied Sciences / The Hong Kong Polytechnic University

The journal *Metaphor and the Social World* aims to provide a forum for researchers to share with each other, and with potential research users, work that explores aspects of metaphor and the social world. The term “social world” signals the importance given to context (of metaphor use), to connections (e.g. across social, cognitive and discourse dimensions of metaphor use), and to communication (between individuals or across social groups). The journal is not restricted to a single disciplinary or theoretical framework but welcomes papers based in a range of theoretical approaches to metaphor, including discourse and cognitive linguistic approaches, provided that the theory adequately supports the empirical work. The journal publishes various types of articles, including reports of empirical studies, key articles accompanied by short responses, reviews and meta-analyses with commentaries. The Forum section publishes short responses to papers or current issues.

BIBLIOGRAPHY OF METAPHOR AND METONYMY

**EDITORS: ANTONIO BARCELONA
AND FRANCISCO JOSÉ RUIZ DE MENDOZA IBÁÑEZ**

Founding editors: René Dirven † (*Mechelen, Belgium*), Sabine De Knop (*Brussels, Belgium*)
and Birgit Smieja (*Landau, Germany*)

Associate editors: Angeliki Athanasiadou, Marco Bagli, Annalisa Baicchi, Fernanda Carneiro Cavalcanti, Monica Fontenelle Carneiro, Benjamin Fagard, Daniele Franceschi, Aneider Iza Erviti, Inés Lozano-Palacio, Agnieszka Mierzwińska-Hajnos, María Sandra Peña Cervel, Lorena Pérez Hernández, Paula Pérez-Sobrino and Xu Wen

Assistant editors: Mahum Hayat Khan (*La Rioja, Spain*) and Carla Ovejas-Ramírez (*La Rioja, Spain*)

The online *Bibliography of Metaphor and Metonymy* offers a research tool for anyone interested in figurative language. Metaphor and metonymy play an important role in language use in everyday life and communication. Their study is by nature interdisciplinary. This instrument is therefore relevant to a broad audience, including (but not limited to) those working in linguistics, anthropology, cross-cultural studies, communication studies, lexicology, pragmatics and discourse, rhetoric, stylistics, artificial intelligence, philosophy, translation studies, literary studies and cognitive sciences.

MetBib strives to cover the whole range of publications on the topic, including articles, books, and electronic resources, from a wide variety of countries and languages. Each publication has a full bibliographic description and keywords, and many have abstracts. MetBib now also provides CrossRef DOIs, where available, for easier linking to source materials (NB. access to sources is not included and depends on whether you/your library subscribes to a source). The bibliography is updated annually.

The current release mainly includes data from 1990 onwards, but it also includes around 600 entries from before this date.

This online bibliography has a range of options for easy searching and smooth navigation through an advanced and stylized application, with which users of Benjamins' *Translation Studies Bibliography* and *Bibliography of Pragmatics* are already familiar.

The screenshot shows the search interface of the Bibliography of Metaphor and Metonymy. At the top, there is a navigation bar with links for Introduction, People, Subscription & Price, Trial, Contact, and JB Online. Below this is a red header with the word "Search". On the left side, there is a sidebar with navigation options: Instructions, Search, History, Lists, Settings, and Log out. The main search area contains a search bar and a table with columns for Field, Search string, and Logical operator. The table lists fields: Author/Editor, Title, Keyword, Abstract, and Publisher, each with a dropdown menu and a logical operator dropdown set to "AND". There are "SEARCH" and "CLEAR" buttons, and a "Basic search" link below the table.
