

## Preface

The thirtieth annual meeting of the Linguistic Society of the Netherlands took place in Utrecht on 6 February, 1999. The aim of the annual meetings is to provide members with an opportunity to report on their research. At this year's meeting 67 papers were presented. This volume contains a selection of these papers.

The 17 papers in this volume present an overview of research in different fields of linguistics in The Netherlands. We wish to thank a large number of colleagues for their help in refereeing the papers submitted for this volume.
