

Preface

The twenty-sixth annual meeting of the Linguistic Society of The Netherlands took place in Utrecht on January 21, 1995. The aim of the annual meetings is to provide members with an opportunity to report on their work in progress. At this year's meeting 77 papers were presented. This volume contains a selection of these papers, as well as a contribution by Rose-Marie Déchaine, which was presented at last year's meeting but for technical reasons could not be published earlier.

The 19 papers contained in this volume present an overview of research in different fields of linguistics in The Netherlands. We thank a large number of colleagues for their help in refereeing the papers submitted for this volume. Thanks are also due to Evelien Keizer, who prepared the camera-ready manuscript.
