

## Preface

The thirty-fifth annual meeting of the Linguistic Society of the Netherlands took place in Utrecht on February 7th, 2004. The aim of the annual meetings is to provide members with the opportunity to report on their research. At this year's meeting 85 papers were presented of which 42 were submitted. This volume contains a selection of these papers. The 20 articles in *Linguistics of the Netherlands 2004* present an overview of research in different fields of linguistics. We wish to thank a large number of colleagues for their help in refereeing the papers submitted to this volume.

We are pleased to report that this year's winner of the AVT-Anéla dissertation award 2003, Dirk-Bart den Ouden, contributed a paper to this volume.
