

Preface

This volume contains a selection of papers presented at the twenty-fifth annual meeting of the Linguistic Society of the Netherlands, held in Utrecht on January, 22, 1994. The aim of the annual meeting is to provide members of the society with an opportunity to report on their work in progress. At this year's meeting 73 papers were presented.

The twenty-three papers contained in this volume present an overview of research in different fields of linguistics in the Netherlands. We thank a large number of colleagues who helped us referee the papers submitted for this volume. Thanks must also go to Ale de Boer for his help in preparing the camera-ready manuscript.
